

Kosovo is Open for Your Business

Services for U.S. Companies

Every year, the U.S. Commercial Service helps thousands of companies export goods and services worth billions of dollars. Let us help you find the best opportunities for your business in Kosovo.

Business Facilitation Services (BFS)

The Business Facilitation Service offers flexible solutions to let you do business when you are away from home. These services can include: interpretation / translation services; invitations to targeted members of the local business community; assistance with product seminars; etc.

Gold Key Matching Service (GKS)

Get the most out of your overseas business trip while saving time and money. Through our Gold Key Matching Service, we help U.S. small and medium-sized businesses find the right business partners in their targeted export markets.

International Company Profile (ICP)

Initiate and manage your international business relationships with confidence. We can generate a customized International Company Profile (ICP) on your potential business partners. Researched and prepared by our staff, ICPs enable U.S. small and medium-sized businesses to more effectively evaluate overseas companies.

Initial Market Check (IMC)

Our industry specialists overseas can analyze your product/service's potential in a targeted market through their connections with key industry participants. The service gauges the potential of a specific product or service in a market by gathering feedback from up to five industry participants and provides written recommendations on whether to pursue the target market.

Single Company Promotion (SCP)

The Single Company Promotion (SCP) provides U.S. companies with a customized service to support and advance their objectives in an overseas market.
